Loans and Collections
VOLUME 34, No. 1

NEWS NOTES

The heir to the British throne saved a 12-year-old lad from drowning last Sunday at Port Churchill. While bathing, the Prince of Wales heard a scream and saw the boy suddenly swept away by a huge comb. The prince plunged after him, clutched the boy, and swam back to the beach.

Manitoba's shipment on Hudson's Bay will soon be open. Ships are now approaching Port Churchill to load with grain for the European market.

C. M. MacLeod, former Hanna barrister, is on his way from Edmonton to Coppermine to conduct the prosecution in the trial of an Eskimo for murder. The barrister, magistrate, and other officials are travelling by airplane to the distant Arctic outpost.

A lone, unsmoked handi staged two daring holdups in Calgary last Monday. Flashing a gun, he took \$150 from a pedestrian. Later, he held up the Greyhound bus station on Seventh avenue and collected \$177. The robberies took place in the early hours of the morning.

Father A. McAdam, St. Anthony's Catholic priest, has two weeks from a Banff hospital, has not yet been found. The search continues.

Tommy Armour, of Medicine Hat, won the Canadian open golf championship at Toronto Saturday with a total score of 287 for the 72 holes of play. Armour, a Scotchman, lost an eye and suffered other injuries while a soldier in the British army.

Another heat wave hit central United States Wednesday, taking a toll of four lives in Iowa. Temperatures reached 100 degrees in the shade.

HOSPITAL NEWS

A. A. Beaudry, of Maple Ridge, is a patient in the Bassano Hospital. Mrs. R. A. Trotter, of Hainier, is a patient in the local hospital. She is reported getting along well following an operation Tuesday.

Jan Brown, of Comford, is a hospital patient. He underwent an operation for appendicitis Tuesday.

Miss Emily Campbell, of Camels, underwent an operation for appendicitis today, Thursday, at the hospital.

GEM NEWS

GEM, Aug. 9.—Grain harvesting has started in Glen and holders are to be seen working in the fields. The crop is expected to be an average one.

Several gem farmers attended the Broome's meeting in Brooks last week-end.

Miss Fren returned last week-end to her home in Calgary after spending her holidays with Mrs. J. H. Hainier.

Mr. and Mrs. Hainier and Mrs. Hainier, were week-end visitors of Mr. Keel.

Mr. and Mrs. Sam Lattie, of Hainier, were Sunday visitors of Gen. T. Letcher and brother, of Saskatoon, recently made a trip to northern and central Alberta.

W. W. Wainwright, Mr. Grainger, and Mr. Davis are away on a trip to northern districts.

It is rumored that a number of new settlers are coming into Gem colony.

The C. P. R. and government seed inspectors were in Glen Friday.

Little Barbara and Dudley Atkins, who have been visiting at the B. Douglas house, left Saturday for their home at Broadwood Bay, Vancouver Island. They were accompanied by Mabel and Earl Douglas.

Ross B. Martin is ill at his home. He has been taking treatments at the Bassano Hospital.

D. K. Douglas, Chas. Douglas, and Mrs. T. L. Maguire and wife, attended the funeral of P. J. O'Connor in Bassano last Sunday.

Little Dick Foley, son of the late H. Foley, former watermaster in Gem, is spending a vacation with Mr. and Mrs. F. Rumble.

The small trout crop in Gem is poor this summer, and few farmers have berries.

BIRTHS

The following births have been recorded at the Bassano Hospital:

A son, to Mr. and Mrs. John Peters, Gem, on Monday, Aug. 6.

A daughter, to Mr. and Mrs. C. B. Jones, Cluny, on Thursday, Aug. 8.

A son, to Mr. and Mrs. Bert Down, Bassano, Thursday, Aug. 9.

Fire Precautions Recommended For Hospital

Installation of Stretchers Suggested—H. A. Holmes Awarded Paving Contract

Installation of stretchers in the hospital corridors was recommended by F. Mead in a letter read at the regular monthly session of the Bassano Municipal Hospital Board held last Saturday, Aug. 4.

Mr. Mead, who made a fire inspection of the hospital buildings, suggested stretchers be kept in a convenient place so that patients could be quickly removed in case of fire. He found the fire fighting apparatus at the hospital in good condition. The board is taking up the matter of the stretchers.

H. A. Holmes was awarded the contract for paving the front of the main hospital building.

One of the board members reported the washing machine was worn out, and the secretary was instructed to purchase a new one.

The following accounts were read and passed for payment:

Bassano Bakery	12.56
Telephone calls	12.38
W. J. Redmond	4.90

W. J. Convention

HUSSAR, Aug. 6.—On August 1st, the seventh annual convention of the Bow Valley Convention, 81st-fifty members and friends were present.

The meeting opened with a verse of the Bible, followed by the "O Canada." Mr. H. H. Hainier gave words of greeting and his report and also the G. H. Hainier, who had been in the chair.

Mr. H. H. Hainier, who had been in the chair, made a splendid speech of welcome. Mrs. Thompson responded in a very happy manner.

Mr. H. H. Hainier, who had been in the chair, made a splendid speech of welcome. Mrs. Thompson responded in a very happy manner.

Mr. H. H. Hainier, who had been in the chair, made a splendid speech of welcome. Mrs. Thompson responded in a very happy manner.

Mr. H. H. Hainier, who had been in the chair, made a splendid speech of welcome. Mrs. Thompson responded in a very happy manner.

Wheat Harvest Gets Under Way

Yield Estimated at Average of Eight Bushels—Wheat Grades From No. 2 to No. 4—Harvest Weather Ideal

Harvesting the 1934 wheat is away to a good start in the Bassano district with combines and binders working in many fields. A large acreage has already been cut with the binder at Crofton, and cutting is also in progress at Makepeace.

Many local fields are being cut with the binder, as the farmers want the straw.

Low Grade. Yields are running low and grades are poor. An early estimate gives an average yield of grain of six to eight bushels to the acre. Some are not worth cutting, and this will reduce the average to a still lower figure.

Grades run from No. 2 down to No. 4, although the first wheat delivered in town was graded No. 1. The wheat kernels are small, and a sample inspected contained many withered grains. Scorching July winds are blamed for the poor quality of wheat.

The grain weighs between 55 and 60 pounds a bushel.

E. F. Maurer and T. N. Simpson have already considerable combining done, and H. H. Hainier and Mr. Hainier started their combine today.

So far weather for harvest has been ideal, and if it continues favorable the work will be cleared up in short time.

Prices Higher. Wheat prices are about 20 cents higher than they were at this time last year. The market remained almost stationary today, with No. 1 at 77½ cents, street price, Bassano. No. 4 was quoted at 64 cents, street, Bassano.

Cutting has started on irrigated land. The yield will be good.

COUNTSSEWS

COUNTSSEWS, Aug. 7.—Mr. and Mrs. Roy Hainier returned last week from a short trip to the north country.

Mr. and Mrs. H. H. Hainier, Carl, Jeanne, Donna, and Marianne, and Miss Marie Chamberlain, of Gen. Hainier, returned from a short trip to the north country.

Mr. and Mrs. H. H. Hainier, Carl, Jeanne, Donna, and Marianne, and Miss Marie Chamberlain, of Gen. Hainier, returned from a short trip to the north country.

Mr. and Mrs. H. H. Hainier, Carl, Jeanne, Donna, and Marianne, and Miss Marie Chamberlain, of Gen. Hainier, returned from a short trip to the north country.

Mr. and Mrs. H. H. Hainier, Carl, Jeanne, Donna, and Marianne, and Miss Marie Chamberlain, of Gen. Hainier, returned from a short trip to the north country.

HUSSAR NEWS

HUSSAR, Aug. 8.—Mr. and Mrs. Frank Thew are visiting in the States.

Art Placanton returned on Tuesday after a week's holiday with his parents at Hinton.

Mr. and Mrs. E. A. Sandgath, of Warden, and Mrs. James Dombay and daughter, of Calgary, were visitors at the Bell house Thursday, en route to Calgary, where Mrs. Sandgath will remain for a couple of months.

J. L. Dunks is the relieving C.P.R. agent during the absence of P. R. Reeves. Mr. Reeves left for Calgary on Wednesday, with Mr. and Mrs. Hollan and son, Kenneth, who were returning to Enslin following a visit with friends here.

Miss Marjorie Kester, who has been visiting her mother, Mrs. H. D. Brown, Mrs. Brown, Barb, Emerson, and Mr. Brockbank spent the week-end at Hinton.

Mr. Louis Hoeght arrived home from Warden on Thursday night for his holidays with his mother, Mrs. J. Hoeght. Art Placanton took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

FIRST WHEAT

The first load of 1934 wheat was delivered at the Alberta Pacific Grain Co. elevator, Bassano, last Saturday afternoon, Aug. 4. It came from the farm of G. Stelmach, six miles southeast of town.

The grain, cut with a combine, was graded No. 1 Northern, and weighed 60 pounds to the bushel.

Last year the first wheat arrived August 3.

Mr. Reeves left for Calgary on Wednesday, with Mr. and Mrs. Hollan and son, Kenneth, who were returning to Enslin following a visit with friends here.

Miss Marjorie Kester, who has been visiting her mother, Mrs. H. D. Brown, Mrs. Brown, Barb, Emerson, and Mr. Brockbank spent the week-end at Hinton.

Mr. Louis Hoeght arrived home from Warden on Thursday night for his holidays with his mother, Mrs. J. Hoeght. Art Placanton took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. Danks and family are home from their holiday trip. Mrs. Danks took both to Taylor Sunday to spend some time with Mrs. K. Schafer.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Moore, W. G. Nelson and E. J. Hainier, who were at the Hinton, Mr. and Mrs. Tom Lawson, motorist to Bassano on Sunday.

Mr. and Mrs. J. C. Lawson and son, were Drummheller visitors on Friday.

Mr. and Mrs. E. A. Holland moved to Calgary on Thursday.

Relief Check-Up Planned by Council

Reduction in Federal Grant Makes Heavier Relief Burden on Town—Claimed One Relief Recipient Refused to Work

A close check-up on every case of relief in the Town of Bassano is an endeavor to obtain at least some work for the jobless so as to reduce his item of expense was planned by the town council in session last Monday evening, Aug. 6.

Cutting of the federal relief grant from a former one-third of the cost down to the present 25 per cent is mainly responsible for the town council's new move to analyze every relief case and make expenditures for this purpose go as far as possible.

Under the old relief plan, the federal government, the provincial government, and the town or municipality each paid a third of relief costs. The federal government's announcement that it would in future pay only 25 per cent of the cost of town's share will be \$1.23 per cent.

With five families on relief during most of the time the last twelve months, the increased cost to the town will be considerable, and if there is any way of reducing the cost the council is determined to find it.

At the council meeting a case was cited of a man receiving relief money who refused to go to work when offered a job at a fair wage. The tag is being investigated.

Miscellaneous Business. Auditor H. W. Ford reported by letter that he had audited the town book for the quarter ending June 30. He found everything correct and in good order.

Secretary Treasurer Jas. R. Downes reported receipts for the month of July amounting to \$1,833.66.

Tom Engineer F. Mead reported that he had repaired a car which was damaged by a fire. He said the car was repaired and taken to town homes; weeds cut.

Six applications for tax consolidation were received and accepted.

WHEAT

Canadian Wheat Not Too High-Priced

Hon. H. H. Stevens, booklet, recently suppressed by Premier Bennett, would be a best seller if only allowed on the market. The minister of trade and commerce booklet is said to charge exploitation of the Canadian consumer by financial groups. It is based on evidence produced before the mass burning committee of the House of Commons over which the trade minister presided. He said he would not rest until conditions were remedied, leveling a many-sided indictment against financial groups for wage cutting, stock watering, and general unethical business practices. The booklet was withdrawn by Premier Bennett after warning of legal action for companies named in the pamphlet. Mr. Stevens has some ideas of his own about Big Business in Canada, and many of us would like to hear more from him.

Germany will not fight except in self defence, says Herr Hitler. Isn't that what brought Germany into the war in 1914? and wasn't it for the same reason Japan entered Manchuria? The "self defence" plea is juggled about to cover a multitude of real motives.

SOCIAL CREDIT GOES TO PEERS

By radio and lecture platforms the protagonists of social credit in Alberta have expanded their theories to a somewhat bewildered public. Now a new medium the press has been adopted for the teachings of William Aberhart and his social credit group.

First issue of the Alberta Social Credit Chronicle was published Friday, July 20. This weekly newspaper is published every Friday in Calgary, with Chas. K. Vanderwood editor and F. Hollingsworth business manager. It is eight pages in size, four columns a page, and, according to the publishers, "it is the only weekly social credit paper in western Canada today."

By the power of his oratory over the other waxes and from the public platform, Mr. Aberhart, the "Messiah" of the social credit system in Alberta, has won many followers. The weekly will further enlighten these followers, and anyone else interested, in the intricacies of the social credit system and keep the members in touch with the activities of the organization.

From a small beginning, interest in the social credit system has spread during the last two years until it has found many partisans in the province. A glance at the pages of the social credit weekly gives some indication of the extent of growth the new gospel has enjoyed. In the August 2 issue of the paper are published reports of social credit group meetings at Sibbald, Hanna, Canaan, Hill Spring, Lethbridge, Bowhead, Drumheller, Cardston and several groups in Calgary and suburbs.

Whatever may be said of the merits or shortcomings of social credit, one thing is certain: thousands of persons flocking to the meetings of the depression are turning an eager ear to Mr. Aberhart and his teachings. They are looking to him for a way out of a desperate situation, and when the time comes to select a new leader for the government of the province, the name of William Aberhart will be the choice of a large number of electors.

John J. McFarland, manager of the Canadian Wheat Pool, is off to London, England, to attend the sessions of the International Wheat Conference which starts August 15. Before he left, Mr. McFarland said, "Prices of Canadian wheat are not too high, having regard to its food value as compared with some other countries' products." This was in reply to criticism of milling purposes, financial purposes, and the Grain Trade News, all of whom have been carrying critical articles about him holding the prices of Canadian wheat too high. Mr. McFarland went further and told a newspaper reporter he was of the opinion that he could dispose of the surplus crop.

Estimate of Northern Hemisphere Crop

The wheat production estimates of 37 countries in the Northern Hemisphere total 2,277,200,000 bushels, compared with 2,472,400,000 bushels harvested in 1933 according to "Foreign Crops and Markets." These countries produce 88 per cent of the Northern Hemisphere crop, excluding Russia and China. The reduction in production from last year is 262,200,000 bushels. Had weather in many of the countries listed continuing after the estimates were made will further depreciate the yields. For instance, in the U.S. Canada is given an estimate of 550 million bushels, the consensus of opinion at the time of writing is that the summer crop will be well under 500 million bushels.

Will Wheat Surprises Be Used Up?

Henry Wallace, secretary of agriculture, for the United States, says the government will purchase from 1,000,000 to 2,000,000 bushels of wheat. The study states that the present surplus is for a world crop in 1934 substantially smaller than that of 1933 with a reduction largely attributable to the severe drought in eastern United States partly to governmental measures or pressure for contracting of acreage in exporting countries. The experience of recent years shows that the contractibility of wheat consumption in numerous countries in the face of short crops is such that, if the world wheat crop of 1934 should turn out to be as much as 450 million bushels smaller than that of 1933, it would not follow that the price of wheat would be as high as it was in 1933. Indeed, the prevailing exchange conditions in Europe are such as to make it seem likely that the short 1934 wheat crop in Europe will not be fully consumed. By increased wheat in the North and the European wheat consumption will be lower in 1934-35 than in 1933-34.

The survey expresses the opinion that the elimination of existing surplus wheat stocks (which is the surplus above the ordinary requirements) is essential to recovery of British export wheat prices to an approximately normal relationship with domestic prices in general. Another factor which might tend to increase prices is noted, that is to say, if business and financial conditions improve and commodity prices in general trend upward, this will help wheat prices to rise even if wheat stocks remain barren.

The estimate of the world wheat carryover as at the 1st of August,

1934, is approximately 1300 million bushels which may be termed 400 to 450 million bushels above a normal carryover.

The French Wheat Crop The estimate of the new wheat crop in France has been raised. It is now placed at 294 million bushels, the carryover at 79 million, making a total of 374 million bushels. This is 40 million bushels in excess of domestic requirement.

The Agricultural Calamity

In the U.S. Middle West the drought of 1934 has inflicted a disaster to United States agriculture unprecedented in the history of that country. The middle western states are the greatest sufferers, principally North Dakota, South Dakota, Iowa, Nebraska, Kansas, Minnesota and Montana.

The lack of rain has paralyzed agriculture in these states and the federal government is really alarmed over the situation. A torrid July following at almost rainless spring has burned up grain crops and pastures, further heightening the darkness and completeness of the calamity. Alberta province, none too well supplied with rain in many of its districts, is a comparative paradise to the desert like regions of the stricken U.S. middle west, according to those who have witnessed the results of the drought.

A Kansas City report states that the wheat stocks in July, the month never more registered below 100 degrees of heat. The effect of such toxicity torridity on crops can be imagined.

Henry Wallace, secretary of agriculture, for the United States, says the government will purchase from 1,000,000 to 2,000,000 bushels of wheat. The study states that the present surplus is for a world crop in 1934 substantially smaller than that of 1933 with a reduction largely attributable to the severe drought in eastern United States partly to governmental measures or pressure for contracting of acreage in exporting countries.

SHAME!

(Clareholme Local Press) Speaking of languages, we averred an academic argument, the other day on the use of "ain't". It has been the general conception that popular usage would ultimately lose its way, but so far "ain't" has not received the academic approval of those who hold sway as authorities in our language. And personally we did see no reason for holding out any longer. It's usage is at all universal and it's completely expressive in an abbreviated form. We ain't got an indictment against the word.

Preparations. Johnny was very hard on trousers. One day, while shopping with a friend his mother bought cloth for a pair of trousers for Johnny, but ordered a good bit more than seemed necessary.

"Why do you get so much?" asked the friend who was with her. "Oh," was the reply, "this is for reserved seats."

Normal carryover will be put that much smaller. The United States will not be able to fill her quota for exports during the coming year and Canada must be allotted a percentage of that amount.

Alberta Pool Gets First Wheat The first ear of wheat from the 1934 crop received by Alberta Pool Elevators was delivered at Fairbairn Springs by Henry Noyland on July 23.

This was winter wheat and grade of One Alberta Red Winter. Teller district claims the first wheat in that area was delivered on July 25 to the Alberta Pool Elevator at the Garfield-Peterson farm, six miles southeast of the town. This was also winter wheat and cutting by combine was started on the 25th of July.

The study states that the present surplus is for a world crop in 1934 substantially smaller than that of 1933 with a reduction largely attributable to the severe drought in eastern United States partly to governmental measures or pressure for contracting of acreage in exporting countries.

HEALTH

Peek of Dirt
The old philosophy which acquiesced in the idea that we must eat a peek of dirt before we die does not fit into our present practices of living.

It is not long since the statement was true, however. Before the time when drinking water was purified, and care given to the keeping of milk clean, or attention devoted to the thorough washing of fruits and vegetables that were to be eaten, nearly everyone consumed a considerable amount of dirt.

There is more than one kind of dirt from a health point of view — clean dirt and dirty dirt. "Clean dirt" is the soil, dust, or other waste in what we might describe as its natural state. "Dirty dirt" becomes dirty, or filthy, and, at the same time, dangerous, when it is contaminated or soiled by secretions from the human or animal body. The reason for this is that body secretions carry away from the body any disease germs which are present in the body so these germ-laden secretions impregnate the dirt with which they come in contact.

The term "dirt" is also used in other ways. We speak of "dirty dishes" to describe dishes which have been in use, although there is nothing on them but the remnants of food. Such dishes are not dangerous unless they have been soiled, while they were in use, by secretions from the body. The dirty dish, in a health sense, is the cup, glass, or spoon or fork, which has been brought into contact with the soil. Saliva is always potentially dangerous because such a high percentage of the infections we meet in this country gain entrance to our bodies through our mouths, and leave in the saliva.

This brings us to the conclusion that the only important dirt is that which comes from our own bodies, and we are reminded that we are the reservoirs of the germs which afflict us and that the only real menace of any kind of dirt lies in the disease germs which may have found a home in it.

You cannot eat a peek of dirt in safety. The smallest amounts are dangerous. Disease germs are microscopic, and many thousands of them can survive without crowding on the head of a pin. Fortunately, time is on our side, for the forces of drying and light gradually destroy these disease germs after they leave the body in whose warm, moist and dark interior they have flourished.

Questions concerning Health, addressed to the Canadian Medical Association, will be answered personally by letter.

W. I. Convention

(Continued from Page One)

a challenge: "Are Women Responsible for the Increase in Crime?" This gave much food for thought. Mrs. Bell's paper, "Shattered Ideals," tried to find a philosophy of living that would enable us to forget our disappointments and become more serene. A surprise was given by Mrs. P. Rogers, Mrs. Hoffenstein, and Mrs. J. M. Wheatley in the form of a comic skit entitled "Practical Use for Pedicars."

The usual tea for the year was voted; also the same list for next year's handicraft exhibit. Mrs. E. J. Bell was re-elected Constituency Convention; Mrs. T. L. Montgomery was re-elected secretary-treasurer, and the constituency representatives, Mrs. Wheatley, Mrs. Murdoch, and Mrs. Elliott were elected. The convenors of committees are: Agriculture, Mrs. T. Lawson of Hussar; Education and Better Schools, Mrs. J. C. Layson of Hussar; Public Health and Child Welfare, Mrs. Corbett; Canadianization and Immigration, Mrs. Murdoch; League of Nations, Mrs. Hoffenstein; of Bassano; House hold Economics, Mrs. G. C. Phillips; Legislation, Mrs. J. M. Wheatley; Canadian Industries, Mrs. C. Hoffenstein, of Chancellors.

A letter of greeting was read from Mrs. Ferguson, Provincial President, and one from Mrs. J. N. Casway. The meeting closed with "God Save the King."

A dainty luncheon was served by the Chancellors ladies at a table in the form of a "U," decorated with bouquets of flowers. Toasts were made to the "King," the "Home," the "Country," and the "Men." Miss Hole extended the invitation, on behalf of the Hussar W. I., to attend next year's convention at that town, and the meeting was adjourned.

IT'S great to be young this summer... with a car... and places to go... and someone to go with.

But your car doesn't have to be young to give you a big kick out of driving. It's how your car acts that interests you.

We too are interested in cars... in the way gasolines and motor oils perform. The simple truth is that there are other good gasolines and other

good motor oils sold in the Dominion. But we have, in Texaco Fire-Chief Gasoline and Texaco Crack-Proof Oil, a combination "made for each other". Used consistently together they consistently produce the best results.

You can have more fun out of driving your car this summer, whether it is old or new, by stopping at your neighborhood Texaco Station for this perfectly matched pair.

**JAMES
JOHNSTON**
"The Quality Store"

Designed in Sizes, 36, 38, 40,
42, 44, 46, 48, 50 and 52. Size 44
requires 4 1/2 yards of 39 inch ma-
terial with 1/4 yard contrasting.

SLENDER LINES

Pattern 8250—Comfortable, easy
to wear, smart and easy to look at—
such is the dress pictured here. And
we must add one more easy—
it is a very simple to make. The wide
ruffles falling in soft folds and sur-
rounding the neck and arms, and the
slips closing make it good style and
comfortable to wear and the straight
line of the skirt make it slender-
izing.

A cotton voile or printed silk
could be used in developing this
pattern with a white organdy edging
the revers and sleeve trimming. And
the construction has been all the
simpler out and given you in the
step by step sewing instructions.

TENNIS NOTES

Playing in the provincial tennis
tournament at Edmonton this week,
Hargis Brown, No. 1 singles player
of the Brooks club, lost 1-6, 2-6 to
Doug Gunn, Calgary city champion.

Bob Donaldson, local racket star,
lost 6-4, 1-6 to Bill Harrison, Edmon-
ton runner-up in the city singles
championship.

Brown and Donaldson were unfor-
tunate in meeting two of the best
players in the tournament in the early
draw.

No word has yet been received on
the progress of young George Stiles,
who is playing in the junior tourna-
ment.

PRUNING FLOWERING SHRUBS

Shrubs should be pruned to pro-
mote development of strong branch-
es and good foliage. Old or dead
wood should be removed, particu-
larly from the center of the bush, so
that light and air may circulate free-
ly.

If the new growth is too crowded
this also should be thinned out.

It is not advisable "crown" a
shrub all round as this tends to
make the growth more dense and the
graceful habit of the shrub is lost.

It is the new growth in the center
of the bush that should be removed,
so that light and air may circulate free-
ly.

Many new species, berries and
bush honeysuckles only need the
dead wood removed. Old plants of
rosa rugosa should have the old wood
cut out near the base so that the
new strong shoots will grow and
renew the plant.

LOCAL NOTES

Mrs. W. E. Bambrake and Mrs.
W. J. Redmond have received the
sad news of the death of their step-
father, Mr. W. J. Lyle, at his home
in Loyal, Wisconsin, on August 4.
Burial took place at Fox Lake, Wis-
consin.

Mr. and Mrs. Wm. Bramley were
visitors to Calgary last week with
Mrs. G. Weller, daughter of Mr.
Bramley.

Sergeant and Mrs. J. N. Cawsey and
children left last Friday for their new
home in Calgary.

Mr. and Mrs. W. J. Smith and baby
daughter were week-end guests at
the home of Mr. and Mrs. H. P. Mc-
Donald in High River.

A. G. Bond, of Hanna, was in town
last Sunday to attend the funeral of
P. J. O'Connor.

Mr. and Mrs. L. E. Newby left
last Saturday on a two weeks' vaca-
tion trip to Vancouver, Victoria and
Seattle.

Miss Jean Plummer has obtained
the position of Latham school for
next term.

H. Brown of Patricia, Bob Donald-
son, and George Stiles left by car
last Sunday for Edmonton where
they are attending to the province's
tennis tournament.

Mrs. A. G. Scott, George Brott and
Mrs. E. P. Carrie returned home last
Saturday evening from a motor trip
to southern British Columbia.

Mr. Hunter and young Hunter Mc-
Donald, father and nephew of Mrs.
C. McKinnon, returned to their home
in Durham, Ontario, on Monday eve-
ning. They had spent the past month
visiting here.

Inspector and Mr. J. Burroughs,
of Calgary, were visiting with Mr.
and Mrs. Roy Clites for a few days
last week.

Mr. and Mrs. L. N. Whitehorn re-
turned last Thursday evening from
the honeymoon.

High school classmate of Lorne
Cawsey gathered in a farewell party
at the Oddfellows' Hall last Thurs-
day evening to honor the young man
on the eve of his departure for Cal-
gary. Lorne was presented with a
fountain pen.

Mrs. F. J. O'Connor and son Frank
returned last Monday to their home
at Westmore, Alberta.

Roy Smith took a load of hogs to
Calgary Tuesday.

Vir Hagen, a P. R. telegraph op-
erator, who has been living at Steph-
en, B. C., since leaving Bassano, is
now at Coronation, Alberta.

Mr. and Mrs. H. Philips spent a
few days at Gull Lake, Sask., where
they visited with Mrs. Philips' moth-
er.

Miss Jean Wallace left last Sat-
urday for Calgary on her summer va-
cation.

Miss Maude Emil is relief opera-
tor on the local telephone switchboard
during the absence of Miss Wallace.
Sergeant C. H. Clarke, R. C. M. F.,
and family arrived from Calgary
last Friday. They have taken up
residence in the house vacated by
Sergeant J. N. Cawsey.

HOLMES GETS CONTRACT

H. A. Holmes has been awarded
the contract for decorating the inter-
ior of the Bassano post office. The
work is to be done some time soon.

CARD OF THANKS

We wish to express our sincere
appreciation for the numerous ex-
pressions of sympathy and floral
tributes received during our recent
sorrow.

Mrs. F. J. O'Connor and Family

KNOX PRESBYTERIAN CHURCH
Rev. John Hart, Minister
Sunday, August 12, 1934.

11 a.m. Sunday School,
7:30 p.m. Evening Worship.
